**Hungarian Currency and Wheat Shipments
to Russia**

25X1

It is reported that the Russians on 30 July demanded that all wheat due as reparations this year be shipped during August and September. Even if wheat can be procured at the official rate of 40 Forint, this will amount to 78,000,000 Forint.

In the meantime the Hungarian government is said to have planned to issue 80,000,000 Forint during August, September, and October.
